Content of the Question is more important than length.
(Specimen Answer Booklet - For Practice Purpose Only)

उम्मीदवारों को इस कॉशिए में नहीं लिखना चाहिए
Candidates must not write on this margin

"Our technologically sophisticated society can be humbled by nature operating on its minute scale."

ManKind has been stunted with a pandemic shaking their life every century and 21st century was no different. It got shaken to the core in 2019 by emerging of covid 19 - THE PANDEMIC! The globe prior to pre covid time was flourishing well with all its positivity, hope and excitement but then it was scratched by a stillness, things were stagnant for no good. Global order got reshaped, rejuvenated to its core in the same manner.

Global order when is thought of is not just about a order or hierarchy its more than that, a very holistic one covering each and every aspect we are touched by.

66 "A healthy mind resides in a healthy body."

Pre covid times were free of masks with no use of sanitizers and rather it was junked with fast food. After covid world is more like HEALTH FIRST , WHAT'S BEST !

World realised the importance of EAST in contrast to the so hyped WESTERN medical system. The reason why east survived more was the more prominence of home cooked food than the Burgers & breads of west.

Ayurveda and yoga were taken as a very ~~to~~ serious science by even the west with ashvagandha and Mulethi along with Tulsi taking the global science. And the way living style has changed are no doubt going to stay with us for all good in long term.

"Power is Politics, Politics is Power."

It is correctly said that 21st century is 'Asian Century' and covid 19 strengthened the cause. Due to increasing prominence of China during covid times, Asia has caught a lot of eyes of world due to some or other reason.

The role of GLOBAL POLITY i.e. WHO, IMF was so talked about and so debated at times. Whether it was the IPR issue raised in World Bank for vaccine manufacturing or USA blackmailing to cancel its share to WHO, the world has seen it all. African nation got eye catching attention due to its vulnerability. Charity Missions of FAO were praiseworthy to count.

What you ~~reap~~ sow is what you reap, education is the very foundation of human survival. Infact education sector was the one that was most affected the covid scenes.

History has never thought of what role online education can play and it proved to be a revolution. UN's, WHO, UNICEF did offered various ~~cases~~ courses online so even a student sitting in India dreamed of doing it. MUN's going virtual gave opportunity to the global masses to connect.

But this all was not uniform it came with lot of gulf b/w Developed & developing nations, East-West, Rich-poor. Also the regional impact was shattering as AISHE Report says that there was wide gulf b/w Bihar & Kerala in terms of e-learning, anyways it is revolution to a greater extent.

Entertainment is all what we
strive for every now and then.
Traditional entertainment i.e. by
big screens & TV's got a setback
and OTTs took the sway and
shined all fresh & new.

Entertainment via education
or vice-versa was new normal.
for eg - In India the Heritage
shows - RAMAYAN got revived to
teach all moral & values that
somewhere got blurring due to
running life.

No doubt the cinema suffered
a setback and the numerous ones
attached to it got away into some
other works but anyways best
is yet to come and will come
with new stories crafted during
lockdown with all new freshness.

Family is all what we enter with and live by. Be it east or west the institution of family was severely affected by virtual Hi-Bye's, superficial understanding of each others happiness and sorrow. But covid got us a still to look around rather look deep about what is happening in the lives of our loved & dear ones.

"Human is a social animal" proved well when we all were locked up in home like jails.

Along with the same the artist got to blossom with new thoughts that they never even thought of prior and would have never reach of if covid would not have happened.

Nature taking a fresh breath
something slipping was taking place. Emissions cut that happened so natural in contrast to our deliberate action making no change

Black hole got repaired and it was so shocking and was for so many people like My God!

No doubt the global order was shaken to its core beyond what we could have imagined. And this changed order is going to stay with us for times to come and always. Everything happens for a reason and so was covid. With all its ills & sorrow it did let to revive, rejuvenate and freshen the GLOBAL ORDER and here it is!
